Build guide

Print every sheet at 100% (Actual size) on card stock.

Head 9 cm cube · Body 18 W × 27 H × 9 D · Arms, legs 9 × 9 × 27 (cm)

Shield 22.5 × 27 cm and sword 40.5 cm long, each in two parts.

Print sheets 13–16 twice: one set per arm, one per leg.

Butt split parts edge to edge on a cardboard backing.

Stack legs → body → center head. Arms flush with the top of the body.

Heads 2–10 go on a plank across the shoulders: Left 1–4, Right 1–5.

Crown blocks (sheet 21, print 10) go on every head. Full figure ≈ 72 cm tall.

Build a 72 cm block-style Raavan

Ten 9 cm cube heads, each with a 9 cm crown block, on a plank, a cardboard-box body, a shield and a sword. Left and Right always mean the figure's own left and right.

What to print

Sheets	What	Copies
1–5	Ten head faces	1
6–7	Head side, top and back tiles, one copy per head (optional, for full 3D heads)	10
8–12	Body faces, body ends, shoulder and limb ends	1
13–14	Right arm	1
15–16	Right leg	1
17–20	Shield and sword	1
13L–16L	Left arm and left leg, already mirrored (after the guide)	1
21	Crown block, one per head (at the end)	10
17M–20M	Shield and sword back faces, already mirrored (at the end)	1
Guide 1–5	This guide, on plain paper	1

Total: 38 sheets of card, or 56 with full 3D heads.

Every sheet prints once, normal orientation. No printer mirroring needed: 13L–16L are pre-flipped copies of 13–16.

Boxes to make

Part	Size (cm)	Qty
Head cube	9 × 9 × 9	10
Crown cube	9 × 9 × 9	10
Body	18 W × 27 H × 9 D	1
Arm	9 × 9 × 27	2
Leg	9 × 9 × 27	2
Head plank	90 × 9 × 1	1
Shield / sword backing	22.5 × 27 / 11.25 × 40.5	1 each
Base board	40 × 30	1

You need

A4 card stock, 200–250 gsm

Corrugated cardboard

Glue stick, PVA, hot glue gun

Craft knife, steel ruler, cutting mat

Bamboo skewers, one 70 cm stick

Gold or black marker for edges

Print settings

Paper A4, colour

Scale 100% / Actual size

Turn off "Fit to page"

Test first: the face on sheet 1 must measure 9.0 cm

Burning it on Dussehra? Use only paper, card and bamboo. No foam board or plastic tape.

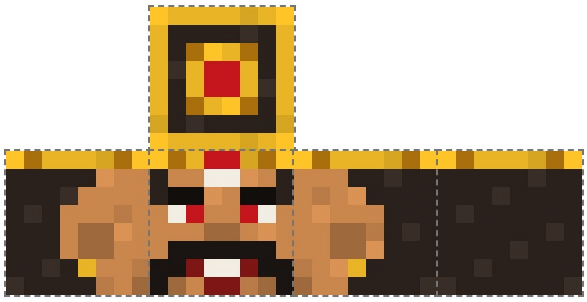

Dashanan Blockheads

1 · Make the boxes

Cut each box from cardboard to the sizes on Guide 1 and tape the edges. Each printed piece should cover one box face exactly: trim the box, never the print.

Cut every printed piece on its dashed line. Shield and sword: cut along the gold or steel edge.

2 · Wrap the heads

RIGHT SIDE FACE LEFT SIDE BACK

Head cube unfolded. TOP sits above the face.

Glue each face on the front of a cube, crown band at the top.

Full 3D heads: wrap the tiles as shown. The crown band always runs along the top edge; the earring hangs low.

The bottom of each head sits on the plank and needs no tile.

3 · Wrap the body

FRONT (sheet 8): ruby necklace at the top, saffron dhoti at the bottom. BACK (sheet 9) on the opposite face.

SIDES (sheet 10): gold shoulder row at the top. BODY TOP and BODY BOTTOM (sheet 11) close the box.

4 · Wrap the arms and legs

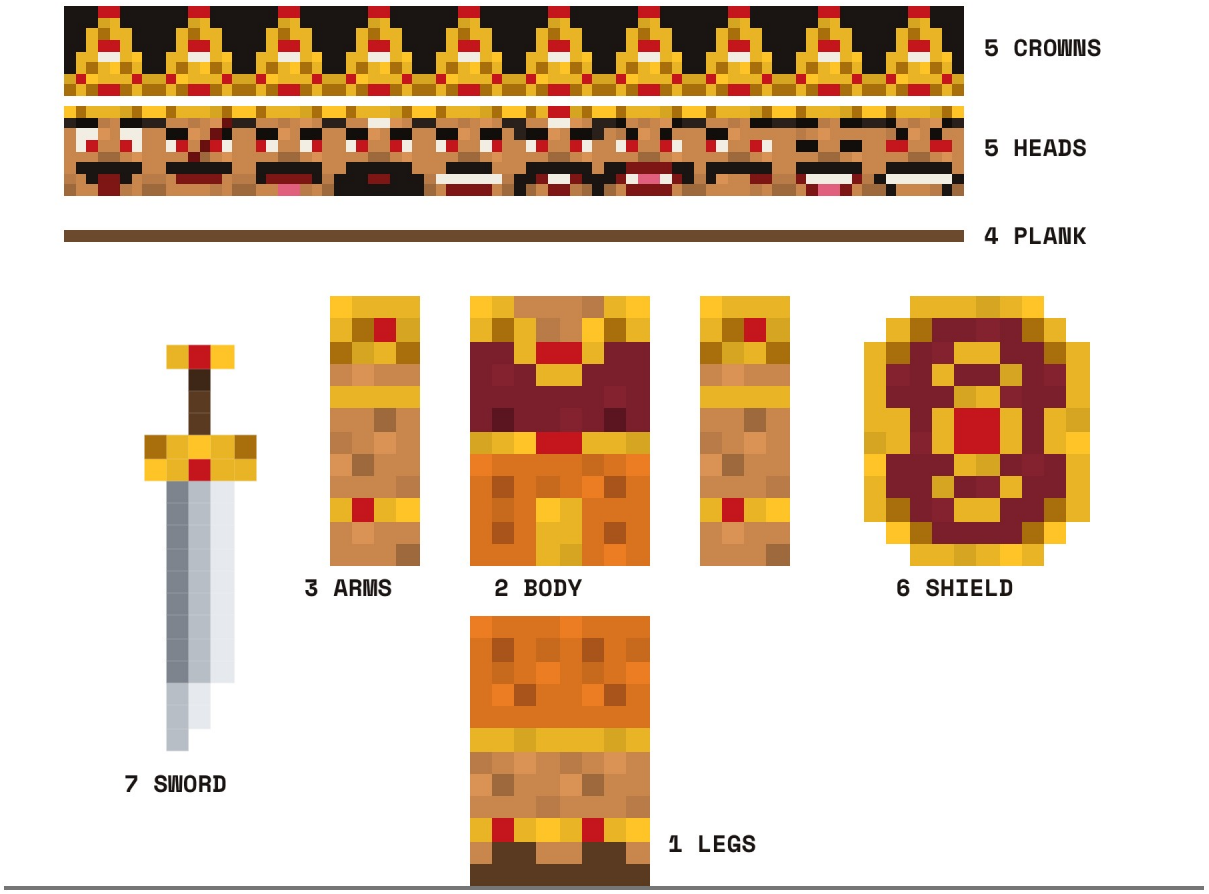

Arms (sheets 13–14): shoulder pad end up. FRONT carries the ruby armlet and faces forward. OUTER SIDE faces away from the body, INNER SIDE against it. Shoulder top (sheet 11) on top, palm (sheet 12) underneath.

Legs (sheets 15–16): dhoti end up, sandal at the bottom. FRONT carries the ruby anklet. Hip top on top, sole underneath (sheet 12).

Keep the sets apart: sheets 13–16 build the RIGHT arm and leg, sheets 13L–16L the LEFT ones. Write R or L on the back of each piece as you cut.

> Glue tip: spread glue stick from the centre outward and burnish corners with a fingernail so the pixels line up across every edge.

Dashanan Blockheads

Exploded front view, as you face the figure. Numbers match the steps.

1 Legs. Glue both legs side by side on the base board, sandals forward. Push two skewers up through each leg so 5 cm sticks out of the top.

2 Body. Press the body onto the skewers, dhoti end down, centred over the legs. Hot-glue the joint.

3 Arms. Hot-glue an arm to each body side, tops flush with the body top. Push a skewer through arm and body.

4 Plank. Cut a 90 × 9 cm strip of triple-layer cardboard. Lay it across the body and shoulders so it reaches 49.5 cm to the figure's right and 40.5 cm to its left. Glue down.

5 Heads. Facing the figure, left to right: Right 5, 4, 3, 2, 1, Center, Left 1, 2, 3, 4. Center sits over the body. Glue each cube to the plank and its neighbours. Top every head with a crown block (sheet 21), FRONT facing forward.

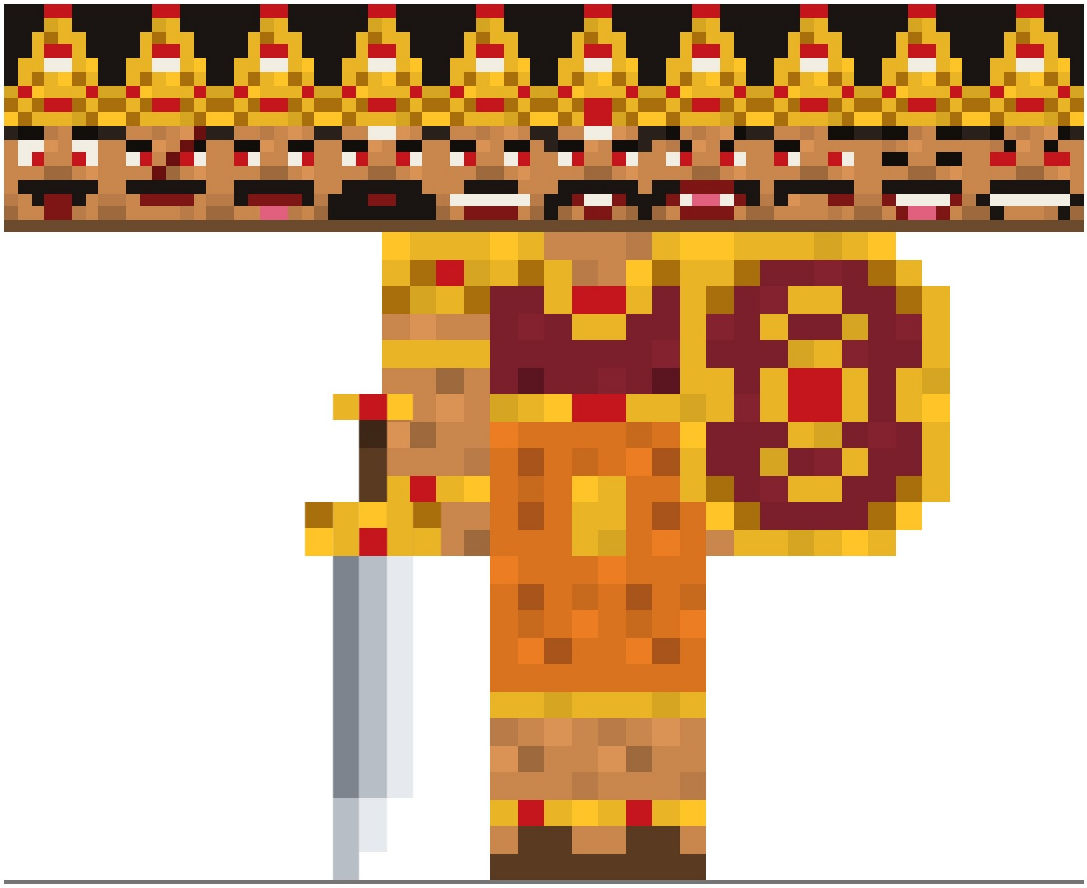

6 Shield. Join sheets 17 and 18 edge to edge on cardboard, glue the mirrored back face (17M, 18M) on the reverse, cut out, then glue the handle loop on the back. Fix it to the outer side of the left arm, facing forward.

7 Sword. Join blade (19) and hilt (20) on stiff card, then glue the mirrored back face (19M, 20M) on the reverse so both sides match. Glue the grip against the outer right forearm, point down, tip on the base.

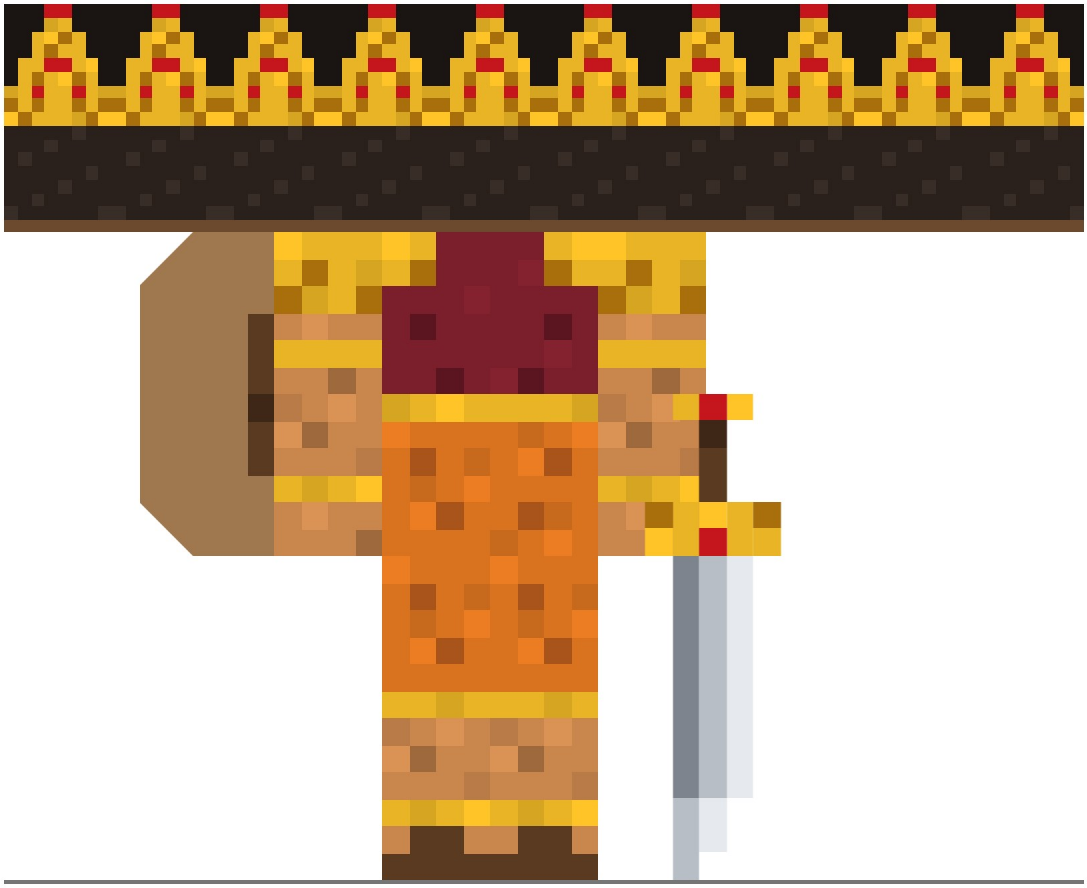

Support. The plank is top-heavy: tie a 70 cm stick from the base up the back of the body to the plank, and add diagonal skewers under the plank ends if they sag.
